

DO NGOC LUONG

Front-end Team Lead | Senior Front-end Engineer

Contact information:

Phone: 0972.704.974 Email: dnluong1990@gmail.com

Address: Bien Hoa, Dong Nai

Year of birth: 1990

PROFESSIONAL SUMMARY

- Senior Front-end Engineer and Team Lead with over 10 years of professional experience in software development, including over 4 years of leading engineering teams and managing enterprise software projects.
- Strong expertise in modern Front-end technologies including Vue.js, React.js, Next.js, React Native, and TypeScript, with solid hands-on experience in Back-end development using Node.js, NestJS, and PostgreSQL.
- Deep domain knowledge in building complex Transportation Management Systems (TMS), Order Management Systems (OMS), and Warehouse Management Systems (WMS).
- Proven track record in designing scalable front-end architectures, implementing robust RBAC systems, and optimizing application performance.
- Experienced in leveraging AI-assisted development tools for solution architecture, project planning, technical documentation, and full-stack development, including multi-tenant SaaS solutions.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Kotlin.

Front-end: Vue.js, React.js, Next.js, React Native, HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, WordPress.

Back-end: Node.js, Express.js, NestJS, Kotlin (Spring Boot Personal Projects), RESTful APIs, Authentication & Authorization (RBAC).

Database: PostgreSQL, MySQL.

Development Tools: Git, GitHub, Figma, Adobe Photoshop.

AI-Driven Software Development: AI-assisted Architecture Design, Project Planning, Technical Documentation, Code Generation & Refactoring.

Methodologies: Agile/Scrum, Code Review & Mentoring, Performance Optimization, UI/UX Collaboration, Cross-functional Leadership.

PROFESSIONAL EXPERIENCE

Jan 2022 – Apr 2026: Front-end Team Lead - Smartway Informatics JSC

Team Size: Up to 9 Developers

Responsibilities:

- Led and mentored Front-end developers across multiple enterprise projects.
- Collaborated with Product Owners, Designers, Back-end Engineers, QA teams, and business stakeholders.
- Conducted code reviews and established development standards to maintain software quality.
- Designed scalable front-end architectures and optimized application performance.
- Managed development progress, task allocation, and outsourcing resources.
- Ensured product quality through testing and adherence to technical requirements.

Key Projects:

- **Transportation Management System (TMS) | Vue.js, NestJS, PostgreSQL**
Role: Front-end Lead
Technologies: Vue.js, TypeScript, NestJS, REST APIs, PostgreSQL.
Achievements:
 - Designed and implemented logistics operation workflows.
 - Developed a Role-Based Access Control (RBAC) system supporting Administrators, Dispatchers, and Drivers.
 - Optimized transportation pricing, dispatching operations, and financial reconciliation processes.
 - Improved operational efficiency through workflow automation and enhanced user experience.
 - Integrated Google Maps API for route visualization and route planning functionalities.
- **Order Management System (OMS) & Warehouse Management System (WMS) | Vue.js, React Native, NestJS, PostgreSQL**
Role: Full-stack Developer & Mobile App Lead
Technologies: Vue.js, React Native, NestJS, PostgreSQL
Achievements:
 - Developed enterprise web and mobile applications.
 - Successfully released mobile applications on Apple App Store and Google Play Store.
 - Coordinated outsourced development resources and project delivery schedules.
 - Implemented inventory management and warehouse operation workflows.

Recognition: Received Employee Excellence Recognition (2024) for outstanding project delivery, leadership contribution, and work performance.

Sep 2015 – Nov 2021: Senior Web Developer - Sao Kim Information Technology Co., Ltd.

Responsibilities & Achievements:

- Delivered 500+ commercial websites across multiple industries.
- Specialized in WordPress development, front-end implementation, and UI/UX design.
- Developed responsive, SEO-friendly, and high-performance websites.
- Worked directly with clients to analyze requirements and deliver tailored digital solutions.
- Collaborated with designers and stakeholders to ensure successful project outcomes.

Technologies: WordPress, PHP, JavaScript, HTML5, CSS3, Bootstrap, Figma, Adobe Photoshop.

CERTIFICATIONS & RECOGNITIONS

- **Employee Excellence Recognition (2024) – Smartway Informatics JSC**
- **AI Applications in Business & Office Productivity – VCCI (2025)**

EDUCATION

Industrial University of Ho Chi Minh City
Associate Degree in Software Engineering
2010 – 2013

LANGUAGES

- **Vietnamese** - Native
- **English** - Technical Reading & Basic Communication
