

ĐỖ NGỌC LƯƠNG

Senior Fullstack Developer / Frontend Team Lead

Contact

Phone: 0972.704.974

Email: dnluong1990@gmail.com

Address: Biên Hòa, Đồng Nai

Year of birth: 1990

Professional Summary

Fullstack Developer with over 8 years of hands-on experience building enterprise systems in Logistics and E-commerce domains. Strong expertise in modern frontend technologies (React.js, React Native, Vue.js) and high-performance backend development (NestJS, PostgreSQL). Over 4 years of experience leading development teams and managing projects from business analysis to production deployment. Passionate about optimizing user experience, system performance, and leveraging AI tools to improve development productivity.

Technical Skills

- Languages & Frameworks:
JavaScript, Vue.js, Next.js, React Native, Node.js (Express, NestJS)
- Frontend:
Vuex, Pinia, HTML5, CSS, SCSS, Bootstrap, TailwindCSS, WordPress
- Backend & Database:
RESTful APIs, PostgreSQL, Authentication & Authorization (RBAC).
- Tools & Others:
Git, GitHub, Figma, Photoshop
- AI Tools:
Codex, ChatGPT, Gemini.

Work Experience

Smartway Informatics Joint Stock Company – Front-end Team Leader

Jan 2022 – Mar 2026 (Onsite)

Responsibilities:

- **Team Management & Coordination:** Managed project progress, assigned tasks, and mentored team members.
- **System Architecture:** Worked directly with stakeholders and clients to analyze business requirements, design workflows, and structure system data models.
- **Fullstack Development:** Actively contributed to developing complex and high-performance system modules.

Key Projects:

- **Transport Management System (TMS)**
Role: Led frontend development and designed logistics workflows.
Achievements: Successfully implemented a complex role-based access control system (RBAC) for multiple user roles (Admin, Dispatcher, Driver), optimizing delivery operations, transportation pricing, and debt reconciliation processes.
- **Order & Warehouse Management System (OMS/WMS)**
Role: Fullstack Developer, Mobile App Developer, and Outsource Team Coordinator.
Achievements: Successfully published mobile applications on both App Store and Google Play.
- **Tour Planning System**
Successfully integrated Google Maps API to visualize and support automatic tour dispatching and route planning.

Sao Kim IT Company Limited – Software Developer

Sep 2015 – Nov 2021 (Onsite)

Responsibilities:

- Developed and delivered over 500+ website projects across various industries.
- Worked with WordPress (PHP), JavaScript, and UI/UX Design tools (Figma, Photoshop).
- Ensured balance between visual aesthetics, SEO performance, and optimized user experience.

Career Objective

Short-term Goal: Enhance leadership and management skills to take on a Tech Lead role and build a high-performing engineering team.

Long-term Goal: Deeply research scalable system architecture and security, while contributing to innovative technology and AI-driven projects.

Education

Industrial University of Ho Chi Minh City (2010 – 2013) - Associate Degree

Major: Software Engineering
